E. L. HERNDON, Editor.

Communications of a personal character charged for as advertisements.
Obituary notices and tributes of respect, of not over one hundred words, will be printed free of charge. All over that number must be paid for at the rate of one cent a word. Cash to accompany manuscript.

WALHALLA, S. C.

WEDNESDAY, JANUARY 28, 1914.

GOING TO RAISE LIVE STOCK.

Gay T. Grove Has Purchased Land in Oconee for this Purpose.

It will be interesting news to many people in Oconee to learn that Gay T. Grove, who resided at Walhalla for several years, but has for some time past lived in Texas and other States, anticipates returning to this county for the purpose of entering the business of raising live stock for market. Just when Mr. Grove will move back to Oconee is not definitely known, but the fact that he is contemplating returning in the near future is indicated in a letter to Jas. H. Darby, of Walhalla, from which we quote as follows:

"I have received the deeds, plats, etc., for the 268 acres I bought of you last August. I wish to thank you very much for the opportunity you gave me of getting such an excellent piece of land. For the past several years I have been looking around for a piece of land upon which I could establish a permanent home.

"I am a native of Virginia and have made annual trips to my native State during the past 20 years. I have lived the past 9 years in Texas. Prior to that I lived in South Carolina, Georgia, Florida, Kansas and Colorado, and a short while in Arkansas. During my residence in the above States I have had ample time and opportunity to observe conditions. In addition I have traveled over the greater portion of the United States, and have always had my eyes open for an ideal place to establish my permanent home. I wanted a place that would be adapted to both agriculture and live stock, and where there was plenty of good, pure water, the minimum amount of sickness, and absolutely free of malaria.

"After getting together a mass of data about conditions all over the country, I left here last August for the purpose of further personal investigation. I made investigations in this State (Texas), in Arkansas, Tennessee, Alabama, Mississippi, Georgia, Kentucky, Virginia and West Virginia—a some investigations in North Carolina—and in none did I find conditions that suited me quite as well as the Piedmont Belt of South Carolina, and especially Oconee county. Therefore I bought the 268 acres from you. I am going to make an up-to-date stock farm out of it in a few years. "I do not know of any section of the country as well adapted to stock raising as Oconee county and the adjoining counties. You have the climate, the soil for producing any kind of grasses, as well as corn and small grain crops, and an even amount of rainfall, properly distributed, and the best water in the world.

"To my mind there are but two reasons why your country has not long ago developed into a great stock-raising country. First, because of the inclination of your farmers to raise cotton as their only money crop; second, that your country, until recently, has been infested with cattle ticks. Both of these will gradually be overcome, and I make the prediction that inside of the next 15 years not only your immediate section, but the whole of the South, will be the real meat-producing country of the United States. The days of the large Western cattle ranches are numbered. The meat product of the future will depend upon the small stock farmer, who will not only raise the animal, but will finish it for market.

"There is another thing I learned while in your section last summer. Your people have the wrong conception of markets for live stock. I was told by business men who are supposed to know things that I would not make a success of live stock because of no central market. I have made some investigations along that line. Outside of Richmond, Baltimore and New York, which are right at your door, but which cannot be classed with St. Louis or Chicago as live stock markets, I find there is nothing to prevent your people marketing their cattle and hogs in Chicago or St. Louis. People get the wrong idea of distances. For instance, when I am in Texas it seems to me only a very short distance to South Carolina, but when I am in South Carolina it seems as if Texas is at the other end of the world. I think this applies to most people, but when we get down to figures we find a difference.

"As an illustration: From Walhalla to Chicago, by the shortest rail route, it is 833 miles, while from Oklahoma City to Chicago it is 858 miles; and from Fort Worth to Chicago it is 1,024 miles, and from El Paso to Chicago it is 1,465 miles. From Walhalla to St. Louis it is 741 miles, from Oklahoma City to St. Louis 543 miles, from Fort Worth to St. Louis 710—the same distance as from Walhalla; from El Paso to St. Louis it is 1,245 miles, and it is only 70 miles further from Walhalla to Kansas City than it is from El Paso to Kansas City.

"There are thousands and thousands of cattle and hogs shipped

from El Paso, Fort Worth and Oklahoma City yearly to Chicago and St. Louis, and with the distance in favor of Walhalla there is no reason why they cannot be shipped from there. There may be some discrimination in freight rates, but it will not amount to much, and can be easily overcome once your country gets into the live stock business.

"The coming of the silo into the South is going to do wonders for the live stock farmer as well as establish itself as a great factor in up-building the soil.

"In speaking of the cattle tick, which has been the greatest foe to cattle raising in the South, Oconee county and the northern counties are now free from the tick, and in a few years the entire South will be practically free from the pest, and then improved breeds will be introduced and the business will begin to flourish. Georgia is one State that is lagging behind in tick eradication, there being only one county in the State that is free from them, but the government is gradually working South, and they will fall in line.

"There is another thing that is going to assist in developing the South as a live stock country: Under the present administration we will have a system of rural credit banks established for the purpose of financing the small farmer. Up to the present time the farmer has never had any financing. This has retarded his growth and kept him from expanding. The lien system, short loans from banks with high interest, has kept the farmer down, and with a better system and easier money, with long-time loans, we will see the farmer come into his own the same as any other business man.

"Therefore I say, with the brightest prospects ever held out, now is the time to buy land in the South. The prices will never be as low again. Yours truly,

Gay T. Grove.

Childress, Texas.

YOU'RE CONSTIPATED.

BILIOUS—CASCARETS.

Sick Headache, Sour Stomach, Gas, Bad Breath, Measly Liver, and Bowels Need Cleansing.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach liver and bowels make you miserable. Fake Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too, adv.

Oconee Teachers Wed.

(Pickens Sentinel, 22d.)

Married, at 10 a. m., at the home of the bride's parents, Mr. and Mrs. Thomas S. Turner, Miss Pearl Turner, only daughter, and Evans P. Myers, Jr., of Berkeley county, Rev. D. Weston Hott officiating. The wedding march was played by Oscar Turner, brother of the bride. The attendants were T. W. Thornhill, of Summerville, S. C., with Miss Nora Hume, of West Union; Walter Turner with Miss Wannie Morgan, of West Union. Miss Pearl has been teaching since last fall in the Keowee school in Oconee county, where Mr. Myers is the principal of the school. What a wonderful thing love is, to reach out her hand from the lowlands of Berkeley and clasp the hand of one of the fairest daughters of the Blue Ridge mountains, and they are called one!

There are many friends of the couple who will join The Courier in extending congratulations and good wishes.

Worms the Cause of Your Child's Pains.

A foul, disagreeable breath, dark circles around the eyes, at times feverish, with great thirst; cheeks flushed and then pale, abdomen swollen with sharp cramping pains are all indications of worms. Don't let your child suffer. Kickapoo Worm Killer will give sure relief. It kills the worms, while its laxative effects add greatly to the health of your child by removing the dangerous and disagreeable effect of worms and parasites from the system. Kickapoo Worm Killer is a health producer should be in every household. Perfectly safe. Buy a box to-day. Price 25c. All druggists, or by mail, Kickapoo Indian Medicine Co., Philadelphia or St. Louis. adv.

To Return Davis Pistols.

Washington, Jan. 23.—Secretary Garrison has directed the return to the heirs of Jefferson Davis two dueling pistols seized by Union troops near the close of the Civil War. This action is based on an opinion of Attorney General McReynolds that the President of the Confederate States had never been deprived legally of his ownership of property. The pistols will be turned over to Jos. A. Hayes, of Colorado, whose wife is the eldest daughter of Jefferson Davis.

For Frost Bites and Chapped Skin.

For frost bitten ears, fingers and toes; chapped hands and lips, chilblains, cold sores, red and rough skins, there is nothing to equal Bucklen's Arnica Salve. Stops the pain at once and heals quickly. In every home there should be a box handy at all times. Best remedy for all skin diseases, itching eczema, tetter, piles, etc., 25c. All druggists, or by mail, H. E. Bucklen & Co., Philadelphia or St. Louis. adv.

THE WALHALLA GRADED SCHOOL.

Trustees Make Statement as to Receipts and Expenditures.

Walhalla, Jan. 20.—Editor Keowee Courier: Will you kindly publish the enclosed statement of receipts and expenditures by the Board of Trustees of Walhalla School District, No. 26, for the purchase, addition and repairs to old school building, and built the auditorium, for the information of the patrons and tax-payers of the district?

Yours very truly,

E. L. HERNDON, Chairman Board of Trustees.

Another Year With Pellagra.

Spartanburg, Jan. 23.—Announcement that the Thompson-McFadden Pellagra Commission will return to Spartanburg in March and conduct its investigation for another year was received here yesterday in the form of a letter from Capt. J. E. Siler, of the medical corps, United States army, a member of the commission. A letter, addressed to a local physician, said that Col. R. M. Thompson, of New York, had agreed to bear the expenses of the commission for another year.

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt.—"We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me."—Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Moyer Cleared of Charges.

Washington, Jan. 23.—Complete vindication of the management of the Atlanta penitentiary by Warden Moyer was given to-day by Attorney General McReynolds when he approved the report of Special Agent McKelway, who conducted an investigation of that institution.

"There is absolutely no foundation for some of the charges made by Julian Hawthorne and others who have been attacking the management of the institution," said the Attorney General. He also stated that the charges made by Representative Howard refer to isolated cases, and that as far as possible these matters have been corrected.

No changes in the management of the institution will be made, but Congress will be asked to make certain changes in the board governing the parole system.

Colds to Be Taken Seriously.

Intelligent people realize that common colds should be treated promptly. If there is sneezing and chilliness, with hoarseness, tickling throat and coughing, begin promptly the use of Foley's Honey and Tar Compound. It is effective, pleasant to take, checks a cold, and stops the cough, which causes loss of sleep and lowers the vital resistance. Bell's Drug Store. adv.

Eugenics Law Set Aside.

The Wisconsin eugenics law, which provides for the issuance of marriage licenses only upon a certificate of a clean bill of health, has been declared unconstitutional by Judge F. C. Eschweiler, of the Circuit Court of that State. The case will go to the Supreme Court.

Judge Eschweiler held that the eugenics law was of unreasonable statutory limitations so far as physicians' fees were concerned, and that it was an unreasonable and material impairment of the right of persons to enter into matrimony.

The law is praised because of its movement toward suppression of sexual diseases, but is condemned because its enforcement is impossible.

The court held that if the State wishes to exercise its right of preventing undesirables from marrying it should weed out the unfit, and thereby not cast upon the fit an unfair demand and thus materially impair an inalienable right.

Do you begin to cough at night, just when you begin to sleep? Do you have a tickling throat that keeps you awake? Just take Foley's Honey and Tar Compound. It will check the cough and stop the tickling sensation at once. Does not upset the stomach, is best for children and grown persons. Bell's Drug Store, adv.

ASSEMBLY ELECTS TRUSTEES.

Must Be 8 Per Cent Ammonia in Cotton Seed Meal, Says House Bill.

Columbia, Jan. 21.—The House to-day disposed of the election of the trustees of the various higher educational institutions.

Trustees Elected.

The first election was for members of the board of trustees of the University of South Carolina. There was no opposition to the re-election of David R. Coker, of Hartsville, and P. A. Wilcox, of Florence, both of whom are now members of the board of trustees and who were re-elected for a term of six years each.

In the matter of the election of three trustees on the Clemson College board, there were these candidates: Josiah J. Evans, member of the House from Marlboro county, was elected to fill the place of his father, the late Hon. W. D. Evans; Ivy M. Mauldin was re-elected, and Wm. D. Garrison, who is in charge of the experiment work near Charleston, for Clemson College, was elected in place of B. H. Rawl. The names presented to the Assembly were: Josiah J. Evans, E. H. Rawl, Ivy M. Mauldin, G. W. Medlock, C. P. Hodges and Wm. D. Garrison.

There was no opposition to the re-election of Orlando Sheppard, of Edgefield, as a member of the board of visitors of the Citadel Academy. A. L. Dukes, of Orangeburg, and C. E. Sawyer, of Georgetown, were elected trustees of the colored college at Orangeburg.

The next election was for two members of the board of trustees of Winthrop College. Gen. Willie Jones, of Columbia, who has served for a number of years on this board, declined to be re-elected, and Major Wm. L. Glaze, of Orangeburg, was elected in his place. J. E. Breazeale, of Anderson, was re-elected as a member of the board. F. B. Creech, of Barnwell, was nominated, but failed to be elected, as there were only two vacant places on the Winthrop board.

Cotton Seed Products.

The House took up and disposed of several matters of consequence, the more important being, strange to say, of interest to the cotton seed meal and cotton seed industry. The first bill taken up was one by Mr. Gray. The point of the whole bill is in the first paragraph, which provides that "no one shall sell or offer for sale in this State any cotton seed meal containing less than 8 per cent of ammonia." This is distinctly an agricultural General Assembly—that is, those who are interested in the lands and farms and come from the farming districts are in control of the General Assembly. They make up a representative personnel for a State such as South Carolina. The farmers in the House said that they wanted a minimum of 8 per cent ammonia in their cotton seed meal. The committee on agriculture proposed an amendment advocating 7½ per cent of ammonia by way of a compromise, but the House killed this amendment and passed the bill as it was proposed by Mr. Gray.

Weight of Cotton Seed.

Then it took up a bill by Mr. Courteney, which provides a punishment for the violation of the law with reference to the weight of a bushel of cotton seed meal. It appears that there has been no punishment provided for a violation of this statute, and this is sought in the bill that was passed to a third reading to-day in the House, the section being as follows:

"Section 2469. Weight of a bushel of cotton seed and corn meal. The weight of a bushel of cotton seed shall be 30 pounds, except the seed of long staple cotton, of which the weight shall be 42 pounds, and the weight of bolted corn meal shall be 48 pounds per bushel."

McMaster Re-Elected Commissioner.

Columbia, Jan. 21.—Insurance Commissioner F. H. McMaster was last night re-elected to succeed himself by the Legislature on joint ballot. He won on the first ballot over two opponents, polling 103 votes against 21 for W. A. Hudgens, and 18 for Ellison Capers.

Mrs. Virginia G. Moody was elected State Librarian on the fourth ballot, over ten opponents, polling 73 votes.

At Last Night's Session of the House.

At last night's session of the House the bill by Mr. Brice in favor of safety matches was killed after a short discussion. Mr. Saunders opposed the bill on the ground that it would be wrong for the State to create a monopoly on matches. Mr. Brice said the bill would prevent so many fires. Just then the Senate arrived and the joint assembly went into scheduled elections.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR.

Try This! Hair Gets Thick, Glossy, Wavy and Beautiful at Once. Stops Falling Out.

Immediate? Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it. adv.

SHORTER HOURS FOR WOMEN.

House Passes Bill for 54 Hours Per Week—Other Legislation.

Columbia, Jan. 22.—The General Assembly to-day concluded all of the elections that were scheduled for the present session. A. H. Hawkins, of Newberry, was elected a member of the board of directors of the penitentiary, and Dr. W. G. Houseal was re-elected a member of the board of visitors of the Medical College at Charleston.

W. H. Glenn, of Anderson, was elected the other director of the penitentiary yesterday.

The House buckled down to real hard work and disposed of a great mass of legislation, the more important measures considered being Mr. McQueen's bill to reduce the legal rate of interest to 6 per cent, which measure, after a full discussion, was defeated, largely on the ground that interest was a commodity that fluctuates to some extent by the demand.

After considerable discussion the House passed Mr. Wyche's bill, which provides that industrial and manufacturing corporations cannot in the future avail themselves of what is known as the "fellow servant" law. In other words, if the Senate approves, the law as it now applies to railroads is intended to extend to industrial and manufacturing corporations with reference to personal injuries. This question of the application of the "fellow servant" law in the matter of accidents has long been a mooted one, and the House to-day gave its approval to embrace all classes of enterprises, together with the railroads in the matter of liability.

For the Working Women.

Another important measure that was passed to-day to its third reading was one proposed and pressed by Clifford Thompson, of Charleston. As the law now stands it is unlawful for women to be employed in mercantile establishments for longer than sixty hours per week. Under the terms of the bill that passed the House to-day the number of hours is lowered to fifty-four per week and in this shape the bill was passed by the House. The revisions of the bill are as follows:

"Section 120. The hours of labor for women in mercantile establishments in this State shall be limited to fifty-four hours per week, not to exceed ten hours in any one day, and such females shall not be allowed to work later than the hour of 10 o'clock p. m. The enforcement of this law is placed in the hands of the commissioner or inspectors or duly authorized agents of the commissioner. Any employee or employees of female labor in mercantile establishments who shall violate the provisions of this act shall be deemed guilty of a misdemeanor, and shall be punished by a fine not less than \$10 nor more than \$40, or imprisonment of not less than ten days nor exceeding thirty days."

Checks Without Money.

Another bill that is to be credited to a Charleston member is that by Mr. Barnwell. The present law against issuing checks without having the money in the bank to meet the check has been found to work so well, except that it does not go far enough, that Mr. Barnwell has undertaken to extend its scope so as to include the issuance of checks by corporations and to hold the officer of the corporation issuing the check without money in bank liable for the violation of the law. The text of the bill as passed by the House is as follows:

"Section 208. Any person who shall hereafter draw and utter any check, draft or order upon a bank, banking house, person, firm or corporation with which, or whom he or the person or persons, or any corporation, association, society or company, for whom he is then acting, have not at the time sufficient funds to meet the same, and shall thereby obtain from another, money or other thing of value or in place such person to surrender or post one any remedy he may have against such drawer, or the person or corporations represented by him, shall be guilty of a misdemeanor, and, upon conviction, shall be punished by fine or imprisonment in the discretion of the court. The offense to be within the jurisdiction of the Magistrate's Court if the value of the property obtained be less than \$20, and be punished by a fine not exceeding one hundred dollars, or imprisonment not exceeding thirty days. Provided, That if such person shall deposit with the drawer of such paper within 30 days after presentation for payment or said check by person drawing the same, funds sufficient to meet the same, with all costs and interest which may have accrued, the prosecution under this act shall be discontinued."

By Mr. McDonald.

Mr. McDonald, of Oconee, has proposed the following: To give the jury the right to consider abusive language as sufficient to bring on a difficulty in case of a simple assault or simple assault and battery.

Best Cough Medicine for Children.

"I am very glad to say a few words in praise of Chamberlain's Cough Remedy," writes Mrs. Lida Dewey, Milwaukee, Wis. "I have used it for years, both for my children and myself, and it never fails to relieve and cure a cough or cold. No family without it should be without it, as it gives almost immediate relief in cases of croup." Chamberlain's Cough Remedy is pleasant and safe to take, which is of great importance when a medicine must be given to young children. For sale by all dealers. adv.

Clergyman Buried at Night.

Savannah, Jan. 23.—Rev. Charles Hall Strong, former rector of St. John's Episcopal church here, who died at Milledgeville yesterday, was buried with the rare rites of the Knights of Kadosh, from his church at midnight on the 22d.

The minister was a thirty-third degree Mason, and the funeral service is the highest the body can confer.
